### **1. Budget 2017/18 Mid-year Review and adjustments budget**

'000	Original Budget 2016/17	MTR Adjusted Budget 2016/17	Difference
<b>Capital</b>	<b>R 63 597 686.00</b>	<b>R 70 794 721.00</b>	<b>R 7 197 035.00</b>
<b>Operating Income</b>	<b>R 118 721 590.00</b>	<b>R 127 716 699.00</b>	<b>R 8 995 109.00</b>
<b>Operating Expenditure</b>	<b>R 110 941 219.00</b>	<b>R 116 105 811.00</b>	<b>R 5 164 592.00</b>

The 2017/18 adjustments budget was taken into account in the preparation of the 2018/19 MTREF. In particular, the capital budget must be set at a level that is realistic in terms of the capacity to deliver and the ability to fund.

#### **Executive Summary**

The budget committee will be confronted with numerous challenges during budget process. The following impacts confronts the committee.

- The slow economic growth in country
- The addressing of service delivery shortcomings as identified in the adjustments budget in February 2018 and its effect on the available funding
- The continued funding constraints with regards to the low available funding for the Capital Budget through the Capital Replacement Reserve;
- The need for the municipality to overlap on its mandate, now ensuring that it provides services that should be provided by District, in water and sanitation which are the mandates of the District
- The municipality making a provision for loan repayment
- Limited Revenue sources which makes it difficult to expedite service delivery

The 2017/18 adjustments budget in February 2018 again proved that the ability of Council to reduce costs is limited due to the fact that the fixed cost component of the operating budget exceeds the variable costs by far. The adjustments budget nonetheless defined the basis for the draft 2018/19 budget.

The municipality needs to focus on its core functions. During the February 2018 adjustments budget the MANCO, scrutinized the budget to affect all possible savings.

- The need to maximize income through efficiencies and the way we do business was investigated before we decided to increase our rates, service charges and other tariffs;
- Getting the Debt collector was to ensure that revenue improves in order to accelerate the services delivery
- The municipality has over the years able to fund its capital projects through reserves, even though the municipality gets 75% of revenue through grants but it has been able to utilize fund well, save money for Capital Projects
- All attempts need to be made to maximize available National and Provincial Government Grants to service part of our capital program;

### **MFMA Circulars**

National Treasury sent out MFMA Circular No. 89 in December 2017 providing guidance to municipalities on their 2018/19 budgets and Medium-Term Revenue and Expenditure Framework (MTREF). Circular 89 was followed up by Circular no. 91 in March 2018. Circular No. 70 & 72 reminds us of the key focus areas for the 2018/19 budget process, and that it must be read together with other circulars.

National Treasury has also set out the requirements for funding the budget and producing a credible budget.

### **Funding the Budget**

Section 18(1) of the MFMA states that an annual budget may only be funded from:

- Realistically anticipated revenues to be collected
- Cash backed accumulated funds from previous years' surpluses not committed for other purposes; and
- Borrowed funds, but only for the capital budget referred to in section 17.

Achievement of this requirement in totality effectively means that a Council has 'balanced' its budget by ensuring that budgeted outflows will be offset by a combination of planned inflows.

Under old budget formats a 'balanced' income generated approach was a key objective and this assisted in ensuring that outflows were matched by inflows, provided revenue collections were realistic. However, GRAP compliant budgets necessitate that budget 'balancing' be much more comprehensive.

New budgeting and accounting formats demand that the budgeted Statement of Financial Performance (Income Statement), the Budgeted Statement of Financial Position (Balance Sheet) and

the Budgeted Statement of Cash Flows must be considered simultaneously to ensure effective financial management and sustainability and to ensure that the budget is funded.

### **A Credible Budget**

Amongst other things, a credible budget is a budget that:

- Funds only activities consistent with the revised IDP and vice versa ensuring the IDP is realistically achievable given the financial constraints of the municipality
- Is achievable in terms of agreed service delivery and performance targets
- Contains revenue and expenditure projections that are consistent with current and past performance and supported by documented evidence of future assumptions;
- Does not jeopardize the financial viability of the municipality (ensures that the financial position is maintained within generally accepted prudential limits and that obligations can be met in the short, medium and long term); and
- Provides managers with appropriate levels of delegation sufficient to meet their financial management responsibilities.

### **PAST AND CURRENT PRFORMNCE, ACHIEVEMENTS AND CHALLENGES (BUDGET IMPLMEMANATION)**

### Property Rates

The new General Valuation Roll should be implemented in July 2018, however because of the challenges experience by the municipality with the awarded service provider, the municipality will extend the contract of the current service provider by one year.

In terms of the general valuation roll, the assessment rates revenue decrease by 3% (from R 18 587 404.00 million in the 2018/19 adjustment budget year to R 17 976 947.00 million (R 610 457.00). The decrease is because of the **PHASING OUT** of the PSI properties, as per Municipal Property Rates Amendment Act, Section 93(a). The resultant projected income from this source of revenue is R 20 214 893.00 (R 2 237 946.00 million) and R 21 339 834.00 (R 1 124 941.00 million) respectively for the two outer years of the MTREF period.
